

# ENVIRONMENTAL JUSTICE PARKS AND YOU

CALIFORNIA STATE PARKS – OFFICE OF COMMUNITY  
INVOLVEMENT

## WORKSHOP PACKET

### Environmental Justice 101

*Test your knowledge before the workshop with this worksheet*

### Zoom Essentials

*Check out this guide for helpful how to's and troubleshooting tips*

### Resources & Links

*Expand your knowledge through these resources and links*

*This worksheet is meant to get you thinking about environmental justice: its meaning, real world effects, and your contribution. Test your knowledge and see how much you know without you using the internet. California State Parks will cover these topics in the workshop. This worksheet is not graded so do not worry whether you get the answers*

*right or wrong.*

Watch this [video](#). Then work through the questions below.

Environmental justice is the \_\_\_\_\_ treatment and meaningful involvement of all people regardless of \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, or \_\_\_\_\_ with respect to the development, implementation, and enforcement of \_\_\_\_\_ laws, regulations, and policies.

List some of the environmental issues that the world is currently facing right now:

Air	Water	Land	Food
			

How do you think these issues affect you? Are there any other issues that are not in here?

---

---

---

Look at the picture on the right, what do you make of this picture? As a society, where do you think we are?

---

---

---

---

---

---

Equality	Equity	Justice
		
<p>The assumption is that <b>everyone benefits from the same supports</b>. This is equal treatment.</p>	<p><b>Everyone gets the supports they need</b> (this is the concept of "affirmative action"), thus producing equity.</p>	<p>All 3 can see the game without supports or accommodations because <b>the cause(s) of the inequity was addressed</b>. The systemic barrier has been removed.</p>

What do you think we should start doing to help bring environmental justice to the world around us?
