#### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of the Napa County Resource Conservation District Napa, California

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and fund information which comprise the basic financial statements of the Napa County Resource Conservation District (the District), a component unit of the County of Napa (the County) as of and for the year ended June 30, 2021, and the related notes to the financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of these financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether these financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BAKERSFIELD 4200 Truxtun Avenue, Suite 300 Bakersfield, CA 93309 661-324-4971 FRESNO 10 River Park Place East, Suite 208 Fresno, CA 93720 559-476-3592

**STOCKTON** 2423 West March Lane, Suite 202 Stockton, CA 95219 209-451-4833

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and fund information of the District, as of June 30, 2021, and the changes in its financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3-8, the budgetary comparison for the General Fund on page 26, and the Napa County Resource Conservation District Employees' Retirement System Schedule of the District's Proportionate Share of the Net Pension Liability and the Retirement System Schedule of the District's Contributions on pages 27 and 28 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 10. 2022, on our consideration of the County's internal control over financial reporting relating to the District and on our tests of the County's compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control over financial reporting and compliance relating to the District.

### NAPA COUNTY RESOURCE CONSERVATION DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2021

The Napa County Resource Conservation District (the District) was formed as an independent special district by a resolution of the Napa County (the County) Board of Supervisors on June 18, 1945. This resolution followed the Soil Conservation Special Election held on June 5, 1945, in which 97% of votes were cast in favor of the organization of the proposed District. The District's original purpose was to help farmers and ranchers in the County tackle erosion and other problems on their land. As natural resource issues change, the District's programs continue to evolve. Today, the District helps the community achieve conservation goals by providing technical assistance, educational programs, monitoring programs, and funding sources on issues ranging from fisheries to forest health, soil management, water conservation and quality, and more.

As management of the District, we offer readers of our financial statements this narrative overview and analysis of the financial activities for the year ended June 30, 2021. Please read it in conjunction with the District's financial statements, which follow this section.

# FINANCIAL HIGHLIGHTS

- The District ended the year with a fund balance of \$1,060,206, an increase of \$71,665 from the prior year. Of that amount, \$375,000 is committed for budget stabilization, \$100,000 is committed for capital improvements at Huichica Creek Sustainable Agriculture Demonstration Vineyard (Vineyard), and \$300 is restricted for imprest cash, leaving \$584,906 available for general District operations.
- The District received \$402,920 from county-collected property taxes, an increase of \$10,297 from the prior year. The District matched property tax revenue with other funding sources (grants, intergovernmental contracts, direct donations) at a ratio of 4 to 1.
- The USDA Natural Resources Conservation Service (NRCS) cooperates with and furnishes assistance to the District through several agreements. This fiscal year the District began working on a new Unfunded Cooperative Agreement for vehicle and space sharing with NRCS. The District is provided the use of NRCS vehicles for project activities, and NRCS pays for some of the District's office rent, materials, and equipment. Additionally, District staff increase the NRCS capacity to meet growing client demand for post-fire recovery assistance, conservation planning, and conservation practice implementation.
- The District received \$484,304 in revenue from contracts with the County of Napa, Napa County Flood Control and Water Conservation District, City of Napa, City of St. Helena, and other local agencies to provide a range of biological, environmental, and educational services in Napa County.
- The District continued to manage its 20-acre Vineyard located in the Carneros region of southern Napa County. A combination of smoke taint and frost damage resulted in a total loss of wine grapes intended for harvest, and a crop insurance claim of \$37,450 was paid to the District by American AgCredit. No wine grapes were harvested or sold. The District retained the services of Agri-Comm Appraisal, LLC to appraise the Vineyard property and complete an in-depth highest and best use analysis. The District also retained the services of Terra Firma Surveys, Inc. to establish the property lines at the Vineyard property. The District undertook a planning process with the Board of Directors, staff, and community partners to develop a strategic direction for the future of the Vineyard. The process concluded with the Board's decision to formally request ideas from community partners for collaborative use of the property within established guidelines.

- A few personnel changes were made in this fiscal year. The District transitioned its extra-help Education Program Assistant to a full-time position to support its K-12 environmental education program. The District's Senior Biologist position resigned and was replaced with a new Environmental Scientist II position. Lastly, the District completed the Mt. Veeder and Mayacamas Community Outreach and Education project conducted in partnership with the Mt. Veeder Fire Safe Council, and therefore ended its contracts with two extra-help positions assigned to the project.
- Volunteers donate their time to help the District deliver several of its conservation and education projects, although COVID-19 greatly reduced the number of volunteer events conducted this fiscal year. This fiscal year 528 volunteers contributed 1,275 hours valued at \$36,388.50. The District also received \$12,868 in cash donations.
- COVID-19 impacted the operations and budget of the District. The District continued operating under its Emergency COVID-19 Plan authorized by Resolution No. 2020-02. The District authorized all employees to work from home for all or part of their workweek, and this necessitated an additional investment in computer equipment, software, and IT services. Due to public health concerns, several projects were delayed or had to be modified, including K-12 environmental education projects, group volunteer projects, and technical assistance to landowners. Additionally, the District delayed plans to remodel its office.
- The 2020 Glass and LNU Lightning Complex Fires impacted several ongoing projects. For instance, the fires burned through the Pope Weed Management Project and the Upper York Creek Dam Removal Project sites, which required project activities to be altered. Additionally, several agencies sought the District's assistance in emergency operations and post-fire technical support. For instance, the District executed Mutual Aid MOUs with Napa County to provide emergency management support to the Office of Emergency Services, and the District provided emergency planning and coordination support to the CAL FIRE Sonoma-Lake-Napa Unit. Additionally, the District received emergency funding from NRCS to provide post-fire technical support to landowners impacted by the fires.
- The District is continuing to work to annex portions of the City of Napa that were incorporated in 1945 which are currently excluded from its District boundary, and this may impact future property tax revenues.

# OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The Statement of Net Position; Statement of Activities; Governmental Fund Balance Sheet; and Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide information about the activities of the District. The basic financial statements also include various footnote disclosures, which further describe the District's activities.

#### **Government-Wide Statements**

The *Government-Wide Financial Statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business.

The Statement of Net Position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between them reported as *net position*.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in the Statement of Activities for some items that will only result in cash flows in future fiscal periods.

#### Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund financial statements report essentially the same functions as those reported in the government-wide financial statements. However, unlike the government-wide financial statements, fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the year.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate the comparison between governmental funds and government-wide statements.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### Required Supplementary Information (RSI)

RSI is presented concerning the District's General Fund budgetary schedule. The District adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with this budget.

#### FINANCIAL ANALYSIS OF THE DISTRICT

#### Statement of Net Position

A summary of the District's Statement of Net Position is as follows:

#### Condensed Statement of Net Position As of June 30

	2021	2020	Increase (Decrease) \$	Increase (Decrease) %
Assets				()
Current assets	\$ 1,382,986	\$ 1,356,481	\$ 26,505	2.0%
Noncurrent assets	472,555	490,806	(18,251)	-3.7%
Total Assets	1,855,541	1,847,287	8,254	0.4%
Deferred Outflows of Resources	189,682	162,148	27,534	17.0%
Liabilities				
Current liabilities	158,233	240,075	(81,842)	-34.1%
Noncurrent liabilities	762,961	684,203	78,758	11.5%
Total Liabilities	921,194	924,278	(3,084)	-0.3%
Deferred Inflows of Resources	84,532	49,699	34,833	70.1%
Net Pension				
Net investment in capital assets	472,555	490,806	(18,251)	-3.7%
Unrestricted assets	566,942	544,652	22,290	4.1%
Total Net Position	\$ 1,039,497	\$ 1,035,458	\$ 4,039	0.4%

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, total assets exceeded total liabilities by \$1,039,497 as of June 30, 2021, due primarily to purchased land and cash.

Cash and investments are maintained in the County's cash and investment pool where interest earned on the District's balance is apportioned to the District.

#### **Statement of Activities**

A summary of the District's Statement of Activities, recapping the District's revenues earned during the year ended June 30, 2021, and the expenses incurred, is as follows:

#### Condensed Statement of Activities For the Years Ended June 30

		2021		2020	-	ncrease ecrease) \$	Increase (Decrease) %

Net Position, Beginning of the Year		1,035,458		1,153,117		(117,659)	-10.20%
Net Position, End of the Year	\$	1,039,497	\$	1,035,458	\$	4,039	0.39%

# Financial Analysis of the District's Governmental Fund

As noted earlier, fund accounting is used by the District to ensure and demonstrate compliance with finance-related legal requirements.

The District ended the year with a fund balance of \$1,060,206 an increase of \$71,665 from the prior year. Of that amount, \$584,906 is unassigned and available for general District operations.

# BUDGETARY HIGHLIGHTS

For the year 2020-21, the District received \$484,304 of its revenues from local public agencies, \$402,920 from property taxes, \$391,030 from federal agencies, \$334,145 from state agencies, \$240,344 from donations, foundation grants, and other sources, and \$105,789 from charges for services. Total revenues were under final amended budget by \$411,448, or 21%, and total expenditures were under final amended budget by \$41,812, or 2%.

Revenues were under budget for a few reasons. Two federally funded projects having several subrecipients were delayed. Work under the NRCS Conservation Innovation Grant was delayed due to the 2020 wildfire season and COVID-19, and a contract amendment was executed to extend the deadline by a year. Additionally, the 2020 and 2021 Technical Assistance grants awarded by the National

Association of Conservation Districts (source of funding being NRCS) were spent more slowly than anticipated by a subrecipient. Additionally, less work was performed under contracts with the County of Napa, Napa County Flood Control and Water Conservation District, and City of St. Helena than was anticipated. Lastly, the resignation of one staff member resulted in an open position for approximately five months.

The District executed several new grants and inter-governmental agreements focused on forestry and wildfire resiliency programming: two additional Technical Assistance grants by the National Association of Conservation Districts; a contract with the Napa Communities Firewise Foundation; a contract with Napa County Office of Emergency Services; and two contracts with CAL FIRE. The District launched a new program to support monarch and pollinator habitat enhancement plantings with funding from the California Association of Resource Conservation Districts, US Forest Service, and Napa County Wildlife Conservation Commission. The District was awarded a third B-WET grant from the National Oceanic and Atmospheric Administration to support its LandSmart Youth Stewards: Salmon to Sanctuary project. The District was a subrecipient of an NRCS agreement through Solano Resource Conservation District to facilitate technical assistance to agricultural operations for on-farm water use efficiency. Additionally, the District greatly expanded its LandSmart farm planning fee-for-service program to assist vineyard properties in complying with the Water Board's water quality control permit.

# CAPITAL ASSETS

For the year ending June 30, 2021, the District owned the 20-acre Huichica Creek Sustainable Agriculture Demonstration Vineyard in the Carneros region of south Napa County, as well as associated land improvements and equipment (vineyard posts, trellis system, fencing, pump). Additionally, the District owned two vehicles, computer equipment (large-scale plotter, network server), and hydrologic equipment (transducer stations, water quality sampler, data logger, rotary screw trap).

# DEBT ADMINISTRATION

For the year ended June 30, 2021, the District did not have any long-term debt obligations outstanding.

# ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

In fiscal year 2021-22, the District projects an increased operating budget over the fiscal year 2020-21 primarily due to an expansion of the District's forestry and agricultural technical assistance programs, and a related increase in subrecipients of contracts that the District administers. The District projects an increase in revenues from state contracts, primarily due to a Regional Forest and Fire Capacity Program block grant from the Department of Conservation and a grant from the State Coastal Conservancy for the Wildfire Resilience on Napa County Protected Lands project. Additionally, revenues for providing technical assistance to agricultural operations concerning water use efficiency, soil health, pollinator habitat, and carbon farming are expected to increase due to agreements with NRCS, the California Department of Food and Agriculture, and Napa Green. The District will begin a new monitoring program through a contract with Napa County Farm Bureau to complete the Napa River and Sonoma Creek Watersheds Vineyard General Permit Monitoring Plan for the Regional Water Quality Control Board. The District also anticipates an increase in cash donations from a donor campaign for its new One Million Trees program and a donor-supported environmental education project in Calistoga. It does not anticipate any major changes in its revenues from local public agencies or charges for services. The District will not have any revenues from grape sales as it plans to remove most of its vineyard blocks, which are suffering from drought and pest damage.

The District manages towards financial sustainability for the organization by building a reserve balance and by keeping programs and projects focused to accomplish necessary natural resource conservation in Napa County and those suited to staff expertise. The District has identified that grants, especially public agency grants, carry burdened costs that are often not captured in overhead ratios allowed by state and federal funders. Indirect cost analysis completed annually by the District demonstrates that actual indirect costs continue to increase and require adjustments in funding strategies dependent on federal and state grants. Also, a heavy reliance on public agency grants poses challenges because the sources change frequently, and cash flow can be severely affected during times of recession. In fiscal year 2021-22, the District plans to remove its commitment of \$100,000 for capital improvements at the Vineyard because it aims to reduce its expenses related to Vineyard operations and explore leasing the property. The District also aims to develop a financing strategy to handle surplus funding in excess of fund balance reserve targets.

Staffing changes are anticipated in fiscal year 2021-22. A new Program Manager position will be hired to oversee the District's forestry and wildfire resiliency program and staff. If the District's donor campaign for its new One Million Trees program is successful, it will also hire a new Project Manager position to oversee it. The pandemic and wildfires have emphasized the importance of innovative workplace arrangements like telework. The District will develop a new telework policy and continue to make investments in its IT and program management infrastructure to better accommodate telework and projects involving numerous partners. The District will also make investments in hot desking solutions for its office and will collaborate with NRCS on other office updates. The pandemic has also emphasized the importance of digital forms of community engagement and outreach. As a result, the District plans to update its website, and will partner with neighboring Resource Conservation Districts and a communications firm to improve how it communicates about its programs to better resonate with audiences ranging from agricultural producers to funders and policy-makers. The District will continue to move forward with annexing portions of the City of Napa that were incorporated in 1945 which are currently excluded from its District boundary, and this may impact property tax revenues.

The District contracts with the County for many of its professional services, although it maintains its own office space, vehicles, equipment, and materials. The District contracts with other vendors for Information Technology support and some other professional services.

# CONTACTING THE DISTRICT

These financial statements are designed to provide a general overview of the Napa County Resource Conservation District finances for all those interested. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Napa County Resource Conservation District, 1303 Jefferson Street, #500B, Napa, California, 94559.

#### NAPA COUNTY RESOURCE CONSERVATION DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUND BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2021

Total fund balance of governmental fund	\$ 1,060,206
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental fund.	472,555
Deferred outflows of resources related to pensions are recorded as deferred outflows of resources in the government-wide financial statements and are not recorded in the governmental fund.	189,682
Long-term obligations are not due and payable in the current period and therefore are not reported in the governmental fund: Net pension liability Compensated absences	(728,912) (34,049)
Deferred inflows of resources related to pensions are recorded as deferred inflows of resources in the government-wide financial statements and are not recorded in the governmental fund.	(84,532)
Certain revenues received after ninety days from the end of the year are recorded as deferred revenue in the governmental fund and as revenues in the government- wide statement.	 164,547
Net position of governmental activities	\$ 1,039,497

#### NAPA COUNTY RESOURCE CONSERVATION DISTRICT GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE FOR THE YEAR ENDED JUNE 30, 2021

	General Fund
Revenues:	
Taxes	\$ 402,920
Intergovernmental - Federal	391,030
Intergovernmental - State	334,145
Intergovernmental - Local Agencies	484,304
Use of money and property	12,364
Charges for services	105,789
Miscellaneous grants and other	227,980
Total Revenues	1,958,532
Expenditures:	
Salaries and benefits	1,265,355
Services and supplies	621,512
Total Expenditures	1,886,867
Net Change in Fund Balance	71,665
Fund Balance, July 1, 2020	988,541
	· · · · · · · · · · · · · · · · · · ·
Fund Balance, June 30, 2021	\$ 1,060,206

#### NAPA COUNTY RESOURCE CONSERVATION DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2021

Net change in fund balance - total governmental fund	\$ 71,665
Amounts reported for governmental activities in the Statement of Activities differ from the amounts reported in the Statement of Revenues, Expenditures, and Changes in Fund Balance because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense or are allocated to the appropriate functional expense when the cost is below the capitalization threshold. This activity is reconciled as follows:	
Current year depreciation expense	(18,251)
Changes in compensated absences do not affect expenditures in the governmental funds but the change is adjusted through salary expense in the Statement of Net Position.	7,654
Changes in proportions from the pension do not affect expenditures in the governmental fund, but the change is adjusted through expense in the government-wide statement.	(93,711)
Certain revenues received after ninety days from the end of the year are recorded as deferred revenue in the governmental fund and as revenues in the government- wide statement.	 36,682
Change in net position of governmental activities	\$ 4,039

#### NAPA COUNTY RESOURCE CONSERVATION DISTRICT NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2021

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Napa County Soil Conservation District was organized on June 5, 1945, under Article 1.5, Division IX (currently Chapter 3, Division 9) of the Public Resources Code of the State of California. On December 14, 1971, the Board of Directors (Board) changed the District's name to the Napa County Resource Conservation District (District). The District is organized for the purposes in open areas, agricultural areas, urban development, wildlife areas, recreational developments, watershed management, the protection of water quality and water reclamation, the development of storage and distribution of water, and the treatment of each acre of land according to its needs. The District is governed by a Board of Directors that is selected pursuant to Government Code Section 1780. The basic operations of the District are financed by federal and state grants and local grants administered through Napa County (the County).

The accounting policies of the District conform to accounting principles generally accepted in the United States of America, as applicable to governmental units. The following is a summary of the more significant policies:

A. Reporting Entity

The District has defined its reporting entity in accordance with accounting principles generally accepted in the United States of America, which provides guidance for determining which governmental activities, organizations, and functions should be included in the reporting entity. In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The primary criterion for including a potential component unit within the reporting entity is the governing body's financial accountability. A primary governmental entity is financially accountable if it appoints a voting majority of a component unit's governing body and it is able to impose its will on the component unit, or if there is a potential for the component unit to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A primary government may also be financially accountable if a component unit is fiscally dependent on the primary governmental entity regardless of whether the component unit has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board.

No operations of other entities met the aforementioned oversight criteria for inclusion or exclusion from the accompanying financial statements in accordance with Governmental Accounting Standards Board (GASB) Statement No. 61.

#### B. Basis of Presentation

#### Government-Wide Financial Statements

The statement of net position and statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government. Governmental activities are normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the program expenses of a given function are offset by program revenues. Program expenses include direct expenses, which are clearly identifiable with a specific function. Program revenues include 1) charges paid by the recipient of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

When both restricted and unrestricted net position is available, unrestricted resources are used only after the restricted resources are depleted.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

#### **Fund Financial Statements**

The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in separate columns. All remaining governmental funds are separately aggregated and reported as nonmajor funds.

The District reports the following governmental fund:

<u>General Fund</u> - This fund accounts for all the financial resources not required to be accounted for in another fund. This fund consists primarily of general government type activities.

C. Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned or, for property tax revenues, in the period for which levied. Expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues from grants, entitlements, and donations are recognized in the year in which all eligible requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when both measurable and available. Measurable means the amount of the transaction can be determined and available means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Resources not available to finance expenditures and commitments of the current period are recognized as deferred revenue or as a reservation of fund balance. The District considers property taxes available if they are collected within sixty-days after year-end.

Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt, as well as compensated absences and claims and judgments are recorded only when payment is due. General capital acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financial sources.

When applicable, the District reports deferred revenue on its balance sheet. Deferred revenue arises when a potential revenue source does not meet both the measurable and available criteria for recognition in the current period. Other than property taxes, the District considers revenue available if received within ninety-days after year-end. Deferred revenues also arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to the occurrences of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has legal claim to the resources, deferred revenue is removed from the combined balance sheet and revenue is recognized.

#### D. Grant Revenue

Grant revenue is recognized when program expenditures are incurred in accordance with program guidelines. Such revenue is subject to review by the funding agency and may result in disallowance in subsequent periods.

# NOTE 1 – <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

#### E. Capital Assets

Capital assets have been acquired for general District purposes. Assets purchased are recorded as expenditures in the governmental funds and capitalized at cost or estimated cost where no historical records are available. The District defines capital assets as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets are depreciated using the straight-line method over their estimated useful lives. The useful lives are as follows:

Land Improvements	20 years
Computer Equipment	3 years
Hydrologic Equipment	5 years
Field Equipment	7-20 years

#### F. Property Taxes

The District receives property taxes from the County, which has been assigned the responsibility for assessment, collection, and apportionment of property taxes for all taxing jurisdictions within the County. Secured property taxes are levied on July 1 for the following fiscal year and on which date it becomes a lien on real property. Secured property taxes are due in two installments on November 1 and February 1 and are delinquent after December 10 and April 10. Property taxes on unsecured roll are due on the July 1 lien date and become delinquent if unpaid by August 31.

The District participates in the County's "Teeter Plan" method of property tax distribution and this receives 100% of the District's apportionment each fiscal year, eliminating the need for an allowance for uncollectible taxes. The County, in return, receives all penalties and interest on the related delinquent taxes. Under the Teeter Plan, the County remits property taxes to the District based on assessments, not on collections, according to the following minimum schedule: 55 percent in December, 40 percent in April, and 5 percent at the end of the fiscal year. Property tax is recognized when it is available and measurable. The District considers property tax as available if it is received within 60 days after fiscal year-end.

#### G. Fund Equity

The unassigned fund balance for the governmental fund represents the amount available for budgeting future operations. Unrestricted net position represents the net position available for future operations.

Restrictions of fund balance of the governmental fund are established to either (1) satisfy legal covenants that require a portion of fund balance to be segregated or (2) identify the portion of the fund balance that is not appropriable for future expenditures.

Restricted net position represents the net position legally identified for specific purposes.

#### H. Compensated Absences

Employees eligible for paid leave, which includes leave for vacation, sick days, and personal necessities, include full time and part time employees that work a minimum of 20 hours per week.

During the first five years of employment, a full time employee earns seventy-eight (78) hours of vacation and sick leave each per year and cannot carry more than eighty (80) hours into the next calendar year. Those employed five to ten years and are full time with the District earn one hundred seventeen (117) hours and may not carry more than one hundred and twenty (120) into the next calendar year. For those employed over ten years and are full time with the District earn one hundred and fifty-six (156) hours and may not carry more than one hundred and sixty (160) hours into the next calendar year. Upon termination of employment from the District, an employee will be paid for vacation time accrued through the employee's last day on the payroll. No portion of accrued sick leave is paid out at termination. No current portion of this the accrued vacation liability is recorded at year-end.

# NOTE 1 – <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

I. Employee Benefits and Indirect Costs

The District's Employee Benefits and Indirect Costs are allocated based upon actual expenditures to all grants in accordance with the Office of Management and Budget Uniform Guidance. The District's employee benefits are allocated to grant projects as a percentage of the District's direct labor cost. Indirect costs necessary to sustain overall operations are allocated as a percentage of total allowable direct costs charged to grant projects. Contribution to indirect costs represent revenues that offset certain costs included in the Indirect Cost Pool.

J. Budgetary Reporting

The District prepares an annual operating and capital budget, which is approved and adopted by the Board. The budget serves as an approved plan to facilitate financial control and operational evaluation.

K. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

L. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# NOTE 2 – CASH AND INVESTMENTS

Cash and investments at June 30, 2021, consisted of the following:

Napa County investment pool Imprest cash	\$ 836,640 300
Total cash and investments	\$ 836,940

A. Investment in Government Pool

Investments are accounted for in accordance with the provisions of GASB Statement No. 31, which requires governmental entities to report certain investments at fair value in the balance sheet and recognize the corresponding change in fair value of investments in the year in which the change occurred. The District reports its investment in the County investment pool at fair value based on quoted market information obtained from fiscal agents or other sources if the change is material to the financial statements.

# NOTE 2 - CASH AND INVESTMENTS (Continued)

A. Investment in Government Pool (Continued)

The County has established a treasury oversight committee to monitor and review the management of public funds maintained in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The oversight committee and the Board of Supervisors review and approve the investment policy annually. The County Treasurer prepares and submits a comprehensive investment report to the members of the oversight committee and the investment pool participants every month. The report covers the type of investments in the pool, maturity dates, par value, actual cost and fair value.

# NOTE 3 - CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2021, is as follows:

	Balance ly 1, 2020	Additions		Retirement/ Adjustments		Balance June 30, 2021	
Capital assets not depreciated							
Land and right of way	\$ 350,100	\$	-	\$	-	\$	350,100
Capital assets, being depreciated:							
Vineyard land improvements	118,572		-		-		118,572
Computer equipment	17,195		-		-		17,195
Hydrologic equipment	31,868		-		-		31,868
Vineyard equipment and improvements	66,876		-		-		66,876
Vehicles	63,386		-		-		63,386
Infrastructure	 25,999		-		-		25,999
Total capital assets, being depreciated	 323,896						323,896
Less accumulated depreciation	 (183,190)		(18,251)		-		(201,441)
Governmental activities, capital assets, net	\$ 490,806	\$	(18,251)	\$	-	\$	472,555

Current year depreciation expense of \$18,251 was charged.

# NOTE 4 – LONG-TERM LIABILITIES

The following is a summary of changes in long-term liabilities reported in the government-wide financial statements for the year ended June 30, 2021:

	 Balance y 1, 2020	A	dditions	tirement/ ustments	Balance le 30, 2021	 e Within ne Year
Governmental activities Net pension liability Compensated absences	\$ 642,500 41,703	\$	86,412 -	\$ - (7,654)	\$ 728,912 34,049	\$ - 4,517
Total	\$ 684,203	\$	86,412	\$ (7,654)	\$ 762,961	\$ 4,517

# NOTE 5 - NET POSITION/FUND BALANCE

# Net Position - Government-Wide Financial Statements

The government-wide financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

- Net Investment in Capital Assets This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balance of debt that is attributable to capital assets reduce the balance in this category.
- *Restricted Net Position* This category presents net position with external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position This category represents net position of the District not restricted for any project or any other purpose.

When both restricted and unrestricted net position are available, unrestricted resources are used only after the restricted resources are depleted.

# Fund Balance - Governmental Fund

The District has adopted a policy for GASB Statement No. 54, *Fund Balance Reporting*. GASB Statement No. 54 establishes fund balance classifications that comprise a hierarchy based on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. While the classifications of fund balance in the District's governmental fund were revised, the implementation of this standard had no effect on total fund balance.

- *Nonspendable* The fund balance includes those amounts that are not in a spendable form or are required to be maintained intact. The District has recorded prepaid expense as nonspendable fund balance.
- *Restricted* fund balance has external restrictions imposed by creditors, grantors, contributors, laws, regulations, or enabling legislation which requires the resources to be used only for a specific purpose. Encumbrances and nonspendable amounts subject to restrictions are included along with spendable resources. The District has imprest cash as restricted fund balance.
- *Committed* The fund balance includes amounts that can be used only for the specific purpose determined by a formal action of the government's highest level of decision-making authority. Per resolution 2017-03, the District committed \$100,000 fund balance for capital improvements at Huichica Creek Sustainable Creek Vineyard and \$375,000 for budget stabilization.
- Assigned The fund balance includes amounts *intended* to be used by the District for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. The District has assigned fund balance for next year's budget.
- Unassigned The fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose.

# NOTE 6 – DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN

#### A. General Information about the Pension Plans

**Plan Descriptions** – All qualified permanent and probationary employees of the District are eligible to participate in the District's Miscellaneous (all other) Employee Pension Plans, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

**Benefits Provided** – CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2021, are summarized as follows:

	Miscellaneous			
	Prior to	On or after		
Hire Date	January 1, 2013	January 1, 2013		
Benefit formula	2% @ 60	2% @ 62		
Benefit vesting schedule	5 years service	5 years service		
Benefit payments	monthly for life	monthly for life		
Retirement age	55-60	52-67		
Monthly benefits as a % of eligible compensation	1.50% to 2.00%	1.00% to 2.00%		
Required employee contribution rates	7.00%	6.25%		
Required employer contribution rates	7.63%	6.84%		

**Contributions** – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2021, the contributions recognized as part of pension expense for each Plan were as follows:

Contributions-employer	\$ 78,789
Contributions-employee (paid by employer)	\$ 45,941

# NOTE 6 – DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN

# B. Pension Liability, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2021, the District reported a net pension liability for its proportionate share of the net pension liability of the Plans as follows:

		Proportionate Share of Net Pension Liability		
	_			
Miscellaneous Plan		\$	728,912	

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2020, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, rolled forward to June 30, 2020, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability as of June 30, 2021 and 2020, was as follows:

Proportion - June 30, 2020	0.01604%
Proportion - June 30, 2021	0.01728%
Change - Increase (Decrease)	0.00124%

For the year ended June 30, 2021, the District recognized pension expense of \$172,499. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 red Outflows Resources	Deferred Inflows of Resources		
Differences between Expected and Actual Experience	\$ 37,563	\$	-	
Changes of Assumptions	-		5,199	
Net Differences between Projected and Actual Earnings on				
Pension Plan Investments	21,653		-	
Changes in Proportion	51,677		3,556	
Difference in Actual and Proportionate Share of Contributions	-		75,777	
District Contributions Subsequent to Measurement Date	 78,789		-	
Total	\$ 189,682	\$	84,532	

# NOTE 6 – <u>DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN</u> (Continued)

# B. Pension Liability, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

\$78,789 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30	_	
2022 2023 2024	\$	(9,273) 13,859 11,390
2025 2026 Thereafter		10,385 - -
Total	\$	26,361

Pension Liability is anticipated to be fully funded by 2024.

**Actuarial Assumptions** – The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions:

	Miscellaneous
Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Actuarial Cost Method	Entry-Age Normal
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	3.00%
Projected Salary Increase	3.3% - 14.2%
Investment Rate of Return	7.15%

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2018 valuation were based on the results of a January 2017 actuarial experience study for the period 2014 to 2017. Further details of the Experience Study can found on the CalPERS website.

**Discount Rate** – The discount rate used to measure the total pension liability was 7.15 percent for each Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

# NOTE 6 - DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (Continued)

# B. Pension Liability, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1 - 10 <sup>(a)</sup>	Real Return Years 11+ <sup>(b)</sup>
Global Equity	50.00%	4.80%	5.98%
Fixed Income	28.00%	1.00%	2.62%
Inflation Assets	0.00%	0.77%	1.81%
Private Equity	8.00%	6.30%	7.23%
Real Estate	13.00%	3.75%	4.93%
Liquidity	1.00%	0.00%	-0.92%
Total	100.00%		

<sup>(a)</sup> An expected inflation of 2.00% used for this period.

<sup>(b)</sup> An expected inflation of 2.92% used for this period.

**Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** – The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Disco	Discount Rate -1% (6.15%)		Current Discount Rate (7.15%)		Discount Rate +1% (8.15%)		
Miscellaneous Plan	\$	1,228,957	\$	728,912	\$	315,741		

# NOTE 7 – DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources (other than those accruing from pensions) in governmental funds arise when potential revenue does not meet the "available" criteria for recognition in the current period. Deferred inflows of resources (deferred revenue in accrual based statements) also arises when resources are received by the District before it has a legal claim to them (i.e., when grant monies are received prior to the incurrence of qualifying expenditures).

# NOTE 8 – <u>RISK MANAGEMENT</u>

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is exposed to various risks of loss related to general liability and workers' compensation. Insurance for the District is secured through commercial insurance for both general liability and workers' compensation. Settlements have not exceeded insurance coverage in any of the last three years.

# NOTE 9 – COMMITMENTS AND CONTINGENCIES

#### Grant Contingencies

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time.

#### Commitments

At June 30, 2021, the District has open contracts related to professional service agreements.

# NOTE 10 - RELATED PARTY TRANSACTIONS

During the year ended June 30, 2021, the District paid the County, a related party, \$39,823 for administrative, legal, and accounting services. The County provided funding during the year in the amount of \$405,217 to offset administration costs.

# NOTE 11 – <u>SUBSEQUENT EVENTS</u>

Subsequent events have been evaluated through January 10, 2022, which is the date the basic financial statements were available to be issued noting none.

**REQUIRED SUPPLEMENTARY INFORMATION** 

#### NAPA COUNTY RESOURCE CONSERVATION DISTRICT REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY COMPARISON SCHEDULE GENERAL FUND JUNE 30, 2021

	Budgeted Amounts						Va	riance with

## NAPA COUNTY RESOURCE CONSERVATION DISTRICT NOTE TO THE REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2021

# NOTE 1 – BUDGETS AND BUDGETARY ACCOUNTING

The Napa County Resource Conservation District (the District) is required to prepare a budget each year based on estimates of revenues and expected expenditures. The budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America. The legal level of budgetary control is exercised at the budget unit (departmental) level. All changes to the budget during the year are reflected in these financial statements and require the approval of the governing board. All unencumbered appropriations lapse at the end of each year.

The budgetary data presented in the accompanying financial statements includes all revisions approved by the Board of Directors.

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors of the Napa County Resource Conservation District Napa, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and fund information of the Napa County Resource Conservation District (the District), a component unit of the County of Napa (the County), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 10, 2022.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) relating to the District as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control relating to the District. Accordingly, we do not express an opinion on the effectiveness of the County's internal control relating to the District.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

30

**STOCKTON** 2423 West March Lane, Suite 202 Stockton, CA 95219 209-451-4833

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of the County's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance relating to the District. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance relating to the District. Accordingly, this report is not suitable for any other purpose.
