

Kids for Monarchs

K-3rd Grade
Building Environmental Awareness

Programming made possible by

What is Kids for Monarchs?

- One hour class presentation with local environmental educators
- Hands-on science and creative art activities
- Option for outdoor experiences

Kids for Monarchs Goals:

- Students are aware of their ability to improve the health of their local environment
- Students can describe and model plant and insect lifecycles
- Students are able to make connections between pollinator and human health

Activities include:

- Insect lifecycle: How does a caterpillar metamorphose into a butterfly?
- Flower diagram: What makes up a flower?
- Habitat Survey: What pollinator habitat exists around our schoolyard, and how can we create more?
